BID # 2018-54
WELL ABANDONMENT RFP, LAND USE DEPARTMENT
WILL COUNTY, JOLIET, IL.

ADDENDUM #1
February 9, 2018

We received the following questions regarding this bid:

Question # 1: What is the well depth and diameter of the well in Manhattan, Illinois that is to be abandoned on Cedar Road??

Answer # 1: All information is unknown.

Question # 2: I am requesting the depth of the well and diameter, and if there's any pipe in the well and the depths of that, also if the well has been shot with explosives. Basically a good well log.

Answer # 2: This is a unique situation. We do not know the exact specifications because we cannot dig down until a contractor is chosen, but we cannot choose a contractor without an accurate bid, based on the specifications:

This well was improperly sealed previously and now needs to be properly abandoned in accordance with Will County Health Department regulations. The existing gravel must be removed from the well. A backhoe must dig down to see if the gravel plug extends below the pitless adapter. If the gravel does not extend below the pitless adapter, then the well can be plugged. If the gravel does extend below the pitless adapter, then the gravel must be removed by using high pressure air (clean out procedure) or a vactor truck.

Lump Sum Project to include: $_____
- Removal of existing gravel
- Excavation
- Plugging of well
- Fill to grade

LUMP SUM BID **$**_____

****Required Cost Basis for change:**

Plugging Below pitless adapter	$_____
