2020-60 – Prairie View Landfill Gas Upgrading System EPC Addendum #4 – January 10, 2020

Please note:

No further questions will be accepted for this bid, as the bid is due on January 17, 2020 at 10:00 AM

We received the following questions regarding this RFP:

Question #1: The form #5 requests an EPC Guaranteed Methane Recovery Rate and Uptime Percentage. My question is on the word "Guaranteed" and what the County is looking for in the "Guaranty". The performance of the upgrade system is always based on the performance and quality of the inlet landfill gas. We are assuming that the EPC offerer is expected to address the issue if the equipment installed does not achieve the rates provided. We, therefore, assume this is an issue to be worked out in the contract negotiations. Is this correct?

Answer #1: The performance guarantee will be based on inlet gas quality and will be negotiated after preliminary design work is completed.
