- *Prior to 2010 costs included fees paid by Will County to cover contractor labor, transportation, advertising, staff and supplies. After 2010, costs included fees paid by Will County to cover staff, advertising and select materials, NO funds were paid to the contractor for one-day events. A subcontractor was paid for assistance in 2016 and 2017.*

NOTE: Although these events are not advertised as accepting appliances, small appliances (i.e., blenders, fans, microwaves, toasters, toaster ovens, etc.) have been collected at these events in the past. Will County prefers not to turn away any resident or governmental entity bringing such items to these events. However, NO appliances containing white goods components have been or will be accepted.

4.2 BACKGROUND-HISTORY OF PERMANENT ELECTRONICS DROP-OFF PROGRAM: Will County began a permanent residential electronic recycling collection program in July 2007 at four partner locations. A fifth location was added in 2008, five additional locations opened in 2009, one more location was added in 2010 and another in 2011. This is a cooperative effort between the County, local government host sites, the Contractor and the general public. Most sites have staff on the property but this is designed to require very little supervision of the Drop-Off itself. The public relies on promotional materials and site signs to know which items are acceptable and the proper method of delivering them.

(*January 1, 2012 The State of Illinois banned 17 electronic items from landfills.) After 2010, costs included fees paid by Will County to cover advertising and select materials, NO funds were paid to the contractor for permanent sites 2010-2015. In 2016 & 2017 fees were paid to a subcontractor to work previously covered by manufacturer funds.*

4.3 SPECIFICATIONS FOR COLLECTION FOR ONE-DAY EVENTS: The Contractor shall provide consumer electronics collection, transportation and processing services listed in these specifications.

The County, through the Resource Recovery and Energy Division of Land Use, will provide the following support to the Contractor to hold the event:

- A. The location of each event. Dates and location of subsequent events will be coordinated with the Contractor at least 45 days prior to each event. The County is responsible for any and all costs for procurement of the site. The Contractor, together with any subcontractors, will be allowed access to the site as necessary to perform its duties as outlined in this Agreement.
- B. Advertising and publicity for the event;
- C. Volunteers or personnel to survey participants and pass out educational materials;
- D. Signage for participants directing them to the site;
- E. Some traffic cones to direct traffic on-site;
- F. A tent for survey staff (if needed), folding tables and chairs;
- G. A portable toilet (if needed) to be used by County employees, volunteers and the Contractor's employees during the event.

- H. A semi-trailer (up to three) from our manufacturer funded electronics recycler to be delivered at the site the morning of the event and leave when loaded.
- I. An electronic registration system for attendees to register to attend each event in order to better assist planning efforts. The system will be accessible through willcountygreen.com and those without internet service may call the Will County Resource Recovery and Energy Division to secure a reservation. There will be at least 10 open slots every hour to accommodate residents that failed to make a reservation. The County will work with the Contractor to set up the amount of reservations allowed per hour. (A goal of 200 vehicle's served per hour with a limit of 2 TVs per vehicle for the first four hours and a minimum of 150 vehicles for all additional hours).

The Contractor is expected to provide the following services:

- J. At least one 53 ft semi in place by 7:30am the day of the public event with requested pallets, Gaylord boxes and shrink-wrap as dictated by the estimated size of the event. An additional semi-trailer if requested, to arrive later in the morning, no supplies required. All vehicles used under the terms of this Agreement shall be owned and identified vehicles of the Contractor and monitored by a tracking system that is traceable and viewable up-to-the-minute on each vehicle. In rare cases, if no such vehicle is available, the Contractor may use a rental vehicle to pick up the equipment in the timeframe required from a Drop-Off site.
- K. Traffic Cones to direct traffic around the contractor personnel.
- L. A telephone and email that the event personnel may use to contact the Contractor the day of the event in case of a problem.
- M. Accept all consumer electronics collected from the host governmental entity and the general public at the collection event that can be placed in the semi and any additional that may be collected to be taken to the Manufacturer Funded Recycler by the Contractor's trucks or taken to the Contractor's site for off-site processing, recycling or eventual transportation to the Manufacturer Funded Recycler.
- N. Provide weight of electronics taken to the County within one week of the event.
- O. Process some electronics accepted from the event at a secure facility that is under a 24-hour secure camera surveillance system and with all doors, window and entry ways secured by a private security company.
- P. Data Containing devices should be secured and destroyed/erased following the guidelines of NIST 800-88
- Q. Contractor must possess onsite or desk audit records of downstream vendors. Proof of downstream vetting process must be available upon request. All downstreams should be approved and reviewed in accordance to e-Stewards/R2 standards.
- R. Contractor is required to pack the manufacturer funded semi-trailers to a minimum of 18,000 pounds. Failure to meet this requirement results in fines to the County and these fines will be split 50/50 with the Contractor.
- S. Contractor is required to possess at a minimum the e-stewards or R2 certification or be working towards achieving one. An ISO 14001 and ISO 9001 certification is also favorable.

4.4 PAYMENT AND RECOGNITION OF MANUFACTURING AGREEMENTS: The County has agreements in place with a Manufacturer Funded Recycler to provide payment for the processing of electronics, along with costs and supplies related to collecting materials from various sites. It is the desire of Will County that these agreements fund all the weight collected in the course of the year. Should these manufacturer agreements fail to cover the full cost of services, the contractor may propose an additional cost in alignment with the current Illinois State Electronics Recycling Law to be charged to the County.

The County recognizes that all materials taken at a drop-off event may not efficiently be sent directly to the Manufacturer Funded Recycler. Any processing and transportation costs incurred by the Contractor for collection, processing and transport are included in the fees charged to the County. The County shall not pay anything more in transportation fees other than what is listed in the fees quoted. All fees shall remain constant throughout the term of the contract. This includes driving to a Drop-Off location, exchanging semi-trailers, transporting the materials to their facility, weighing all the materials, counting the number of specified materials and processing the materials for recycling.

4.5 LEVEL OF SERVICE: The COUNTY shall offer at least two, and up to six, One-Day Collection Events per year. The COUNTY and CONTRACTOR recognize that the number of participants at each event varies, as does the amount and variety of electronic items.
