

Stormwater Management Committee Awards Grants for 2015 Projects

The Will County Stormwater Management Planning Committee awarded the 2015 Project Grants to recipients at their regular meeting on Tuesday May 12, 2015. Three projects were selected county wide which included a mix of flood mitigation and water quality improvement projects.

“The Stormwater Committee is grateful that the County Board continues to support and fund this project program” said Scott Killinger, who chairs the Committee. “The projects funded this year will benefit the citizens of Will County by improving water quality in our streams, and by mitigating flooding in neighborhoods.”

This is the seventh year of the program. The Stormwater Project Program awards grant funds of up to 50% for projects that include flood mitigation and water quality improvement. Will County received three applications this year from three different local sponsors. The Will County Board budgeted \$150,000 for 2015 and the Stormwater Management Planning Committee was able to award all of it. The selected projects include:

- Wheatland Township – Clow Creek Drainage Improvement Project
- Sunnyland Subdivision Stormwater and Drainage Improvement Project
- City of Lockport 3rd and Summit Storm Water Project
