

2020 QBS
Request for Statement of Interest (SOI)

EXCHANGE STREET (CH 49) AND IL ROUTE 394
RECONSTRUCTION, ADD LANES, INTERSECTION IMPROVEMENTS
PHASE II ENGINEERING SERVICES
Section Number: 20-00086-25-CH

The Will County Division of Transportation requires professional services from a qualified engineering consultant to provide Phase II Design Engineering Services for capacity improvements for Exchange Street (CH 49) at its intersections of IL Route 394 continuing west to Country Lane.

The attached **Project Description** and **Preliminary Scope of Services** provides a summary of major items potentially encountered during the course of the required Phase II services. At this time the County anticipates starting this work in summer 2020, with an approximate eighteen (18) to twenty-four (24) months to complete the work.

Submittal of Statements of Interest required electronically to WCDOTconsultantservices@willcountyillinois.com no later than **12:00 PM (Noon), March 27, 2020** addressed to **Eric Wesel**.

If you plan to enter into a joint venture for this project, please note this on your SOI, including the name of the firm entering into this joint venture with you for this project.

The Short-listed firms will be posted on our Consultant Selection Summary Table at <http://www.willcountyillinois.com/County-Offices/Economic-Development/Division-of-Transportation/Consultant-Selection>

A Statement of Interest (SOI) received after the above noted deadline will not be used as part of our consultant selection process.

Please refer to the following Project Description and Preliminary Project Scope for more information on this project.

I. PROJECT DESCRIPTION

The Will County Division of Transportation (WCDOT) desires to improve Exchange Street (CH 49) at its intersection of IL Route 394, including improvements west to Country Lane. This project includes pavement reconstruction, turn lanes, and traffic signal improvements. The proposed improvement will generally consist of:

- Adding channelization on Exchange Street at IL Route 394
- Traffic signal modifications/modernization at IL Route 394
- Adding channelization at Country Lane/entrances to Walt's shopping plaza
- Drainage improvements
- The construction/reconstruction of existing pavement on Exchange Street from IL Route 394 west to Country Lane
- Evaluate existing right of way / need for additional right of way

Phase II will be locally funded. Phase III Construction will be funded with local funds. This project will be completed under applicable IDOT guidelines including BLR and BDE Manuals and WCDOT standards.

II. PRELIMINARY PROJECT SCOPE

The Consultant will provide Phase II engineering services including but not limited to the following:

- Detailed topographic surveys
- Surveys for any right of way acquisitions or construction easements, and the preparation of plats and legal descriptions
- Soils/pavement investigation, as necessary, to determine roadway structural design, as well as CCDD screening
- Preparation of a project photo log of existing conditions
- Assist in obtaining permits from all regulatory agencies and updating of any clearances as required by the scope of the proposed improvements
- Estimates of Costs and Time
- Coordinate with the WCDOT, IDOT, the Village of Crete, Crete Township, and other involved parties/agencies as necessary
- Intersection Design Study
- Drainage report
- Preparation of contract plans and specifications
- Land acquisition services are not included with this contract
